About the Job

We are looking for a Full Stack PHP Developer who is motivated to combine the art of design with the art of programming. Responsibilities will include translation of the UI/UX design wireframes to actual code that will produce visual elements of the application. You will work with the UI/UX designer and bridge the gap between graphical design and technical implementation, taking an active role on both sides and defining how the application looks as well as how it works.

Preferences:

- A desire to work with, and quickly learn a modern development stack that includes MongoDB, react.js, knockout.js, Elasticsearch, Git- a plus
- JavaScript frameworks such as [Angular - React]
- Hands-on PHP web framework Yii is a plus
- Develop solutions with PHP based CMS like WordPress or Joomla, etc..
- Good understanding of server, network and hosting architecture
- Being familiar with UX/UI issues
- Experience dealing with platforms like Atlassian's Confluence/Jira is a plus.
- Knowledge of Linux and networking, specially wireless, is a great plus.

Job Requirements

- 3-5 years of experience in web development.
- Strong knowledge of object-oriented PHP programming
- Strong knowledge CodeIgniter and Laravel frameworks.
- Understanding of MVC design patterns
- Experience with XML, HTML5, JavaScript, CSS and JSON.
- Experience with SQL/NoSQL databases and their declarative query languages
- Understanding fundamental design principles behind a scalable application
- Creating database schemas that represent and support business processes
- Experience with Version control system (Git, SVN, etc.)

Job summary

Send an updated CV and Motivation Letter before 15/11/2018 to HR@Hedgecorp.co.uk. Write "Full Stack PHP Developer" in the subject.
